NOVA® Slim casement locking handle

Featuring a super low-profile design, the NOVA® Slim casement locking handle eliminates interference with blinds and window treatments. The sleek, sophisticated solution is the first of its kind—applying an aesthetic flush mount design to vinyl casement window applications.

The patent-pending NOVA® Slim handle works in conjunction with the NOVA® multi-point casement locking solution, engineered to optimize security, ease of operation and flexibility through its innovative features.

// product features

- Super low profile with only 8 mm projection
- Handle retainer features brush gasket to provide insect barrier
